Charny Programmer NotePad [32|64bit]

Charny Programmer NotePad Crack Mac is a language-aware and independent text processor designed for professional programmers and web designers to help them develop code for external programs or webpages. It features a rich selection of programming languages, like PHP, HTML, Visual Basic, Java, SQL, TeX or Pascal. Develop simple or more complex code The tool is wrapped in a clean and user-friendly interface that can handle multiple documents at the same time. The toolbars can be hidden from sight for a less cluttered look. Make sure you have .NET Framework installed on the drive as it's required for the program to run. Automatic language recognition You can open almost all web file formats, like CS, CPP, JAVA, HTML, PHP, ATG, ASP, PY, XML, CFM or PAS. The app automatically recognizes the code language and highlights the important tags and text to help you view the content better. Look up words and check the file's attributes From the menu, you can view the document's properties (e.g. name, extension, number of lines/words), set the printing settings, find and replace terms with others, toggle comments, and increase or decrease the indent. Disable unnecessary toolbars In addition, it's possible to hide the toolbar, format and status bar, as well as choose the bar's style from image, text or both of them. All languages are neatly organized in an alphabetical order. Add important files to the bookmark folder From the "Options" menu, you can disable the matching brackets and the end of the line, along with the tab and space markers. The tool lets you install additional plugins. Last but not least, you have the option to bookmark favorite documents and reopen them with one click. Modern-looking text processor On an ending note, Charny Programmer NotePad is a reliable piece of software designed to help programmers to easily write new code and apply further corrections to existing documents. The app comes with support for almost all programming languages, such as HTML, PHP, JavaScript, Python or Pascal. Developer Notes Developer's Comments: To receive the most recent version of this app, first visit and create an account. Then, from the "My Apps" menu, select "Update my
